**Alex Krakovsky, World-Renowned Ukrainian genealogical researcher: Moderators Paulette Bronstein & Arthur Sissman**

Alex has scanned and published thousands of digital images of Ukrainian archives on various Wiki pages created and supported by him. His scanned files are being included on JewishGen and a team of volunteers are transcribing them.

Alex shares the news of his projects on his Facebook page.

His cataloged Jewish records are included in the TKF (TSAL KAPLAN FOUNDATION) archive database ([https://www.tkfgen.org/inventory\\_provinces.html](https://www.tkfgen.org/inventory_provinces.html))

We will begin the meeting with a conversation with Alex then we will explore the TKF database as a research tool and a method to finding and understanding scanned archival images.
