

SPEAKER: Phyllis Kramer, Vice President of Education for JewishGen

Getting the Most out of JewishGen - for all levels

JewishGen's mission is to preserve our history for future generations. It provides an electronic framework which allows online researchers to gather document and preserve this heritage. All the information is easily accessible, in database form, available worldwide at no charge. The presentation will address the databases...and how to easily access them.

A practicing genealogist, with primary interest in Eastern European Jewish research, Phyllis Kramer wears many hats. She serves on the JGSPBCI board of directors where she regularly conducts beginners workshops and the Brick Wall session. At JewishGen Phyllis is a member of the Advisory Board; and, as Vice President of Education for JewishGen, she has created an online education program for over 1,400

students. Until her retirement, she served as a business consultant for IBM.
