

The Jewish Genealogical Society of Greater Miami

Presents

How to build your Family Tree Using a Computer

With

Reuven Shefer

The Technology Officer of JGS of Greater Miami

Mr. Shefer will discuss the topic of moving from a paper based Family Tree to a Digitally based one, including the process of selecting PC software for your Family Tree.

Mr. Shefer will discuss the usage of GEDCOM files and demonstrate the building of a Family Tree using a software program. This is an interesting and informative lecture for your genealogy research. Join us!

Thursday, February 4, 2016 5:30 - 7:30 PM
