Temple Beth Am Library  
5950 SW 88 Street, Miami Florida 33156**

**Speaker: Daniel Horowitz  
My Heritage Chief Genealogist**

## **Discovering Your Family History with MyHeritage 7 unique technologies**

In the last decade, technology has revitalized genealogy, opening many new frontiers for research, preservation and sharing while maintaining the thrill of the detective hunt. The important intersection of technology and genealogy is the center of this talk.

Daniel will discuss MyHeritage's 7 key technologies: Smart Matches, Record Matches, Record Detective, Instant Discoveries, SearchConnect and the very new Global Name Translation. We will share behind-the-scenes anecdotes on how these technologies were invented and improved, describe the challenges they solve, and explain how you can make the most of them for your family history research.

**Daniel Horowitz, holds board level positions in a few genealogical societies. With a B.Sc. in Computer Engineering and a Specialization in Education & Management of Educational Institutions, he has a deep understanding of the needs of today's family history enthusiasts.**
